Letter of recommendation

To whom it may concern,

Anthony worked with Eagle Software in our client services team. Throughout his time here, I had the opportunity to work with Anthony on several projects where he acted as a web developer.

Anthony built several websites on our custom content management system, and the work he did was accurate and detailed. Anthony was very diligent, hard working, professional and detail oriented. He is a very bright individual, and was a pleasure to work with.

I believe Anthony would be an excellent addition to any web development team and he has my highest recommendation.

Sincerely,

Luke Pavard
Eagle Software
